

REAL TIME DUBBING

Accessible Communication Developers

WHAT IS IT?

TV audiences can enjoy live English produced shows with simultaneous Spanish audio. Different from off-line dubbing, where a program is pre-recorded and subsequently dubbed to Spanish, we provide a one of a kind experience in which the viewer can listen to characters in the show speak Spanish with little or no delay. These services are optimal for newscasts, contests, or any live show or event. Real time dubbing in Spanish is a unique service currently being used by companies such as Harpo Productions.

PACKAGE INCLUDES

- Live adaptation and interpretation
- Up to three voices
- Accurate translation
- Emotions, dramatizations and talent conveyed by professional actors

AVAILABLE ENHANCED OPTIONS (rate varies based on service)

- Additional voice talent

TECHNICAL SPECIFICATIONS REQUIRED

- High speed internet channel: the audio will be sent over an internet link
- Original audio is to be provided by the client with a five second pre-roll to allow time for sync
- In the event a 5-second delay is not available, there will be a 5-7 second delay
- High quality IP audio encoder. Tx/Rx is required

**Note: In the event an encoder is not available we can provide the customer with one temporarily during the production of the event. Client is responsible for returning the equipment in the condition it was received.
